The IEEE-EMBS International Conference on Body Sensor Networks (BSN 2026) is the premier forum for research in wearable sensing, mobile health, and computational medicine, bringing together experts from academia, industry, and clinical practice. In 2026, BSN comes to Porto, Portugal, a vibrant Atlantic city blending stunning architecture, and world-class culture.

We invite submissions showcasing advances in **sensing systems, signal processing, AI/ML, digital biomarkers, and translational digital health technologies.**

THEME
